

RECYCLING STATIONS & BINS

We offer a wide range of recycle stations and bins. You can find an ideal unit for the disposal of everything; from general waste and organic waste to plastics, aluminum and paper. These recycling stations and bins are designed to your specifications, offering stations with several separate openings for the efficient recycling of waste making them perfect for offices, canteens, schools or even outdoor settings. The stations can be combined together and they can also be manufactured with a sink module for the efficient recycling of liquid waste.
