Escribir nos permite comprender, procesar, pensar, de ahí que en todos los procesos de aprendizaje, ya sea en la escuela, la universidad o en la empresa, la pizarra ha sido, es y será una herramienta indispensable. Eso sí, dejamos a tu elección el tipo de pizarra que más te guste o mejor se adapte a tu espacio. El acto de escribir a mano estimula áreas del cerebro que también se activan cuando reflexionamos. Escribir a mano es un acto físico, como físicas son nuestras pizarras y al igual que la escritura dice mucho del carácter de la persona que escribe, las pizarras dicen mucho del carácter de sus empresas.

Writing allows us to understand, process, think, hence in all learning processes, whether at school, university or at work, the blackboard has been, is and will be an indispensable tool. Of course, we leave it up to you the type of drawing board that you like the most or best suits your needs. The act of handwriting stimulates areas of the brain that are also activated when we reflect. Writing by hand is a physical act, as our blackboards are physical, and just as writing says a lot about the character of the person whose writing, blackboards say a lot about the character of their companies.

L'écriture permet de comprendre, traiter, penser, dans tous les processus d'apprentissage, que ce soit à l'école, à l'université ou en entreprise, le tableau a été, et sera toujours un outil indispensable. Bien entendu, nous vous laissons le choix du type de tableaux que vous aimez le plus ou qui convient le mieux à votre espace. L'acte d'écrire à la main stimule des zones du cerveau qui s'activent lorsque nous réfléchissons. Ecrire à la main est un acte physique, aussi physique que sont nos tableaux, et tout comme l'écriture en dit long sur le caractère de la personne qui écrit, les tableaux en disent long sur le caractère de leur entreprise.

La scrittura ci permette di capire, elaborare, pensare, quindi in tutti i processi di apprendimento, a scuola, all'università o sul posto di lavoro, la lavagna è stata, è e sarà uno strumento indispensabile. Tuttavia, lasciamo a voi la scelta del tipo di lavagna che più vi piace o che meglio si adatta al vostro spazio. L'atto di scrivere a mano stimola aree del cervello che si attivano anche quando riflettiamo. Scrivere a mano è un atto fisico, così come sono fisiche le nostre lavagne, e così come la scrittura dice molto del carattere di chi scrive, le lavagne dicono molto del carattere delle loro aziende.

Tener a la vista tus notas, fotos, dibujos o tus textos preferidos hace que su soporte sea cuanto menos, igual de importante. Ese recordatorio visual, esa tarea pendiente, aquel instante captado por una cámara en forma de foto, o ese dibujo de tu hijo que te hace sentir especial, merece un buen espacio, y en la empresa o en la escuela, un informe, una notificación, unas notas académicas, o el póster de algún evento necesitan de su espacio en una zona visual al abasto de todas las miradas. Con o sin acristalar y por supuesto en tu color preferido o en el que tu equipo de interioristas decida cual queda mejor en el espacio donde se vaya a ubicar.

Avoir vos notes, photos, dessins ou vos textes préférés à la vue rend leur support d'autant plus important. Ce rappel visuel, cette tâche en attente, ce moment capturé par un appareil photo, ou ce dessin de votre enfant qui vous fait vous sentir spécial mérite un bon espace, et dans l'entreprise ou à l'école, un rapport, une notification, des notes académiques ou l'affiche d'un événement ont aussi besoin d'une place dans un espace visuel et ainsi ravir tous les regards. Avec ou sans vitrage et bien sûr de la couleur de votre choix ou de celle de votre équipe d'architectes d'intérieur il saura s'adapter à votre espace.

Having your notes, photos, drawings or your favorite texts on view makes the drawing board just as important. That visual reminder, that pending task, that moment captured by a camera in the form of a photo, or that drawing of your child who makes you feel special deserves a good place, at work or at school, a report, a notification, academic notes, or the poster of an event need a place in a visual area for all eyes to see. With or without glazing and of course in your favorite colour or wherever your team of interior designers decides is the best option for the place where it's to be located.

Avere in bella mostra gli appunti, le foto, i disegni o i testi preferiti rende il loro supporto almeno altrettanto importante. Quel promemoria visivo, quel compito in sospeso, quell'istante catturato da una macchina fotografica sotto forma di foto, o quel disegno di vostro figlio che vi fa sentire speciali, meritano un buon spazio, We in azienda o a scuola, una relazione, una notifica, qualche nota accademica o la locandina di un evento hanno bisogno del loro spazio in un'area visiva disponibile a tutti gli occhi. Con o senza vetri e, naturalmente, nel vostro colore preferito o in quello che il vostro team di designer d'interni deciderà essere il più adatto allo spazio in cui deve essere collocato.
